Format D

First line is curved, remaining lines are straight.

Format E

Last line is curved, remaining lines are straight.

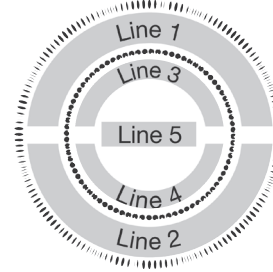

Format F

All lines are curved.

Embosser Line Setup

When ordering your embosser, follow the guidelines below for maximum lines and characters available on 1½" and 2" seal embossers.

1½" Seal

Line No.	Max # of Char.
1	21
2	21
3	14
4	14
5	8

Lines 1 & 2 based on 10 point type;
Lines 3-5 based on 8 point type

2" Seal

Line No.	Max # of Char.
1	23
2	23
3	14
4	14
5	8

Lines 1 & 2 based on 12 point type;
Lines 3-5 based on 10 point type

Seal Embosser Formats

When ordering your seal embosser, please specify a format from below. Shaded areas denote customizable parts of the embosser.

Stamps & Embossers

General Ordering Information

Proof

If you check the box for a proof you will be charged \$15.00 (R) and a proof will be emailed or faxed to you.

Quantity

If no quantity is indicated, one stamp or embosser will be made.

Item Number

Indicate item number to designate which item will be ordered.

Finished Size

When ordering a rubber stamp of a different size not found in catalog, request a quote and indicate the finished size of the product on the order blank.

Special Instructions

Clearly print or type any special instructions in the space provided. Attach an additional sheet if necessary. Use this space to also indicate any special instructions or logos. Indicate all typesets used on this order. All products will be typeset using our discretion unless otherwise noted in Special Instructions. Attach a sample whenever possible.

Artwork

You will need to provide clean, black and white artwork scaled to fit the impression area if custom design is wanted. Artwork must be at least 600 dpi. Screens are not available.

Notary Stamps & Embossers

Notary stamps and embossers are available for an extra charge of \$4.40. (Item Number NOTARY). All notary stamps and embossers will be typeset per the specifications of the state. Requirements will vary state by state. Our policy is to follow the state recommended guidelines. California and Oregon must supply their original certificates of authorization; no copies for those two states are allowed. The remaining states must supply a copy of their certificate. The State Notary Certificate is required with each notary stamp except for Idaho, Kansas, New Mexico, South Dakota, Wisconsin, and Washington DC.

Stamps

Typesets

Indicate a typestyle from pages 253-254. If a typestyle is not specified, 43C (Swiss Caps) will be used. The maximum number of lines and characters for stamps are based on 8 pt. Swiss Caps. Contact customer service if information is needed on a specific product for lines and characters.

Ink/Imprint/Stock Color

If an ink color is not specified for stamps and date stamps, Black will be used. Special exceptions may be noted by certain stamps. Certain date stamps are available with two ink choices. Indicate color choices for date and copy in Special Instructions. If no ink colors are selected, defaults will be used; refer to defaults for the item. All copy is typeset to fill stamps. If you do not want the stamp to be filled, note that information in special instructions.

Signature Stamps

Submit hand written signature three times on a blank white sheet of paper with your order.

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

Embossers

Typestyles

Indicate a typestyle from page 253-254. If a typestyle is not specified, 43C (Swiss Caps) will be used for custom embossers and B07C (Gothic Caps) will be used for all formatted embossers. Maximum number of lines and characters are based on 10pt type for custom and formatted embossers. Contact customer service if information is needed on a specific product for lines and characters.

Logo or Format Number

When ordering an embosser, choose a format or list CUSTOM if artwork has been supplied.

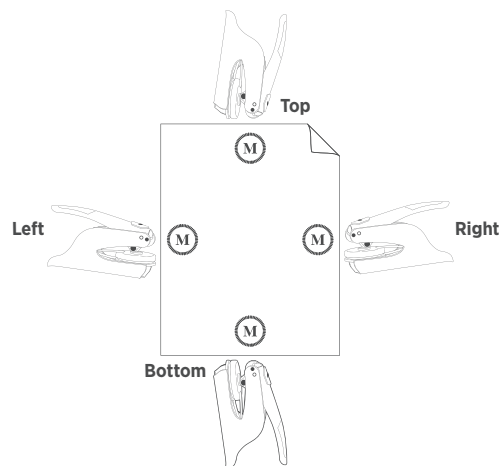

Embosser Direction

Specify one direction from which you will be using your embosser: for a seal embosser indicate top, bottom, left or right of the paper; for a stationery embosser indicate top or the bottom. If a direction is not specified, the seal embosser will be made to be used from the left and the stationery embosser from the bottom.

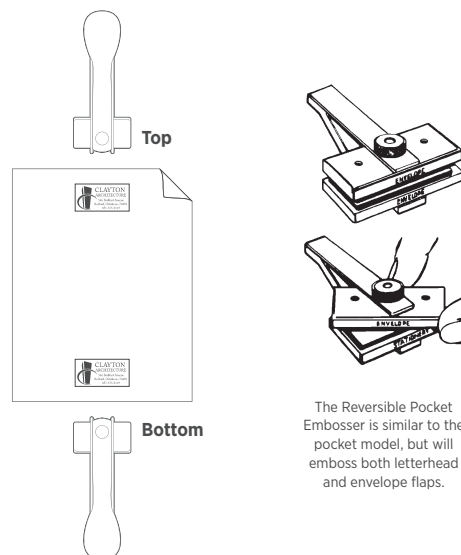

Embosser Directions

When ordering your embosser, specify the direction in which you want the embosser to be formatted.

Seal Embossers

Stationery Embossers

The Reversible Pocket Embosser is similar to the pocket model, but will emboss both letterhead and envelope flaps.

Color Requirements

We now have a new "Accurate Color" System. You can now send your files colored using the intended PMS color instead of having to color it using CMYK colors. Every effort will be made to print your intended color within acceptable standards.

Spot Color Printing

1. Raster Artwork: Submit black and white images or grayscale images at 600 dpi for standard spot printing. If raster artwork is placed into a layout program (InDesign, Quark, CorelDRAW, etc.), the artwork can be colored per our guidelines. (See "Coloring Your Files.")
2. Vector Artwork: Every element of the file must be colored with spot colors (no RGB, CMYK, etc.). (See "Coloring Your Files.")

Full Color Process Printing

1. Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.).
2. If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.
3. While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) colors using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from Pantone® spot colors, sometimes significantly.
4. To ensure the best possible results for your order, use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black to achieve the best result.

Coloring your files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black	Black
Brown	Brown
Burgundy	Burgundy
Dark Blue	Dark Blue
Gray	Gray
Green	Green
Light Blue	Light Blue
Red	Red
Reflex Blue	Reflex Blue
Teal	Teal
Any Foil or Embossing	Conversion (CRUCIAL for die ordering)
PMS Ink	Use actual PANTONE® Spot Color Swatch*

Coloring your files for Multiple Spot Color Printing

Desired Ink Colors	Use These Colors
Any 2 Standard Colors	Actual Color
Black & 1 PMS Ink	Black & PANTONE® Spot Color Swatch*
2 PMS Inks	PANTONE® Spot Color Swatches*
1 Standard & 1 PMS Ink	Actual Color & PANTONE® Spot Color Swatch*
Black & Foil	Black & Conversion
Black & Embossing	Black & Conversion

NOTE: Files will be used as is if not indicated on your order blank.

*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order.

Pantone®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

Native Applications

We accept files created in the following native applications:

Acrobat® PDF	Mac & PC PREFERRED FORMAT
QuarkXPress®	Mac & PC
Adobe® InDesign®	Mac & PC
Adobe® Photoshop®	Mac & PC
Adobe® Illustrator®	Mac & PC
CorelDRAW®	PC only

We **DO NOT** accept files created in the following native applications:

Microsoft® PowerPoint®	Mac & PC
Microsoft® Excel®	Mac & PC
Microsoft® Word®	Mac & PC
Microsoft® Publisher®	PC only

Application Requirements

PDFs — Macintosh or IBM Compatible

1. All fonts must be embedded.
2. All elements of the file must be colored per our guidelines.
3. All placed graphics and images need to be high quality, colored according to our guidelines (see "Coloring Your Files") for the product ordered. Whenever possible, place vector images into the layout before converting to a PDF. Be aware that when changes need to be made to placed images (coloring, mode, etc.), there is the possibility of the quality being compromised.
4. Name the PDFs without punctuation of any kind (except .pdf) or special characters. File names should be short.

QuarkXPress® — Macintosh® or IBM® Compatible

1. When selecting fonts, you must use only the selected fonts owned by Navitor®, as listed on Navitor.com. If you are using font not owned by Navitor, outlines must be created in an illustration program before placing into your QuarkXPress® document.
2. Never use the style palette to modify fonts. That change will not show when printed.
3. Along with your file sent for placement, we need the supporting graphic file(s) given the same name as the graphic(s) in your document. (Changing the name after placement will make the graphic come up as "missing" or "modified" when read by our imagesetters.) Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

Adobe® InDesign® — Macintosh® or IBM® Compatible

1. Change all text into "outlines" in your document.
2. If you are using an imported graphic in your InDesign® document, be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
3. Save as an INDD file.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

Adobe® Photoshop® — Macintosh® or IBM® Compatible

1. Files must be saved as a TIFF without compression.
2. If using spot printing, do not color an image in Photoshop®.
3. Submit black and white bitmap mode images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing. Images that come to Navitor at a lower quality than what is recommended will be output as sent.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")
5. All files need to be submitted at the size being used for printing.
6. If bleeds are needed, allow 1/8" (.125") on all sides unless otherwise noted.

Adobe® Illustrator® — Macintosh® or IBM® Compatible

1. Change all text into "outlines" in your document.
2. If you are using an imported graphic in your Illustrator® document, be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
3. Save the file as an Illustrator EPS.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

General Electronic Guidelines

Application Requirements (cont.)

CorelDRAW® — Native Files

1. We do not recommend this application for full color layouts.
2. If CorelDRAW® is used, we cannot guarantee that colors for full color products will match what is seen on screen. You will be responsible for any color issues if native CorelDRAW® file is sent.
3. Follow established guidelines for all graphics. Placed graphics need to be colored correctly for the product ordered (see “Coloring Your Files”). Placed graphics need to be high quality or good vector art to receive the best quality printed product.
4. Create outlines (text to curves) on all type within a native CorelDRAW® file.
5. If there are text overflow issues, we may need to resize or reposition text to fit the imprint area.
6. Color all text according to our guidelines. (See “Coloring Your Files.”)
